

# MODULE 11 The next steps

---

Well done, you have made your way through the Workbook.

You will now be able to understand financial information more clearly.

There are many organisations from which information can be obtained. Their contact addresses are in your local telephone directory. Try:

*Benefits Agency*

*Citizens Advice Bureaux*

*Department for Work and Pensions (DWP)*

*HM Revenue & Customs*

It may also be worthwhile contacting your employer to find out about any benefits they may provide such as share schemes, pensions and life insurance.

Most bookshops and libraries have books about money.

Most daily and weekend papers have money sections (on different days for different papers). Many magazines are published on finance/investment matters.
